授業の概要

This course is designed to teach good health habits through English conversation, including all four skills of reading, writing, speaking, and listening.

授業の目的

The object of this course is to develop the student's ability to communicate health issues in English. The book is based on listening, speaking, reading, and writing. The course will emphasize the listening and speaking aspects of health. With a solid vocabulary background and a tension free atmosphere, the students will be encouraged to master health English communication.

学習目標

1. The students can describe the outline of the passage on the QOL in their own words, referring to dictionaries.
2. The students can produce what they want to say about the QOL in accordance with the basic word order of English.
