授業の概要

In addition to raising health awareness the goal of this course is to help students to develop English language skills for general use. Learners will take a critical look at various issues and present them in a logical manner.

授業の目的

The purpose of this course is for students to:

- Improve their basic English health-related vocabulary
- Ask and answer questions related to the text in English, and
- Improve their overall communication skills through various activities

学習目標

It is hoped that through doing various tasks the students will also learn new health-related information as well as to become more aware of their own health and Quality of Life(QOL).
