授業の概要

In addition to raising health awareness the goal of this course is to help students to develop English language skills for general use. Learners will take a critical look at various health related topics and present them in a logical manner in the class.

授業の目的

The purpose of this course is for students to:

- Improve their basic English health-related vocabulary
- Ask and answer questions related to the handouts, and
- Improve their overall communication skills through various activities

学習目標

It is hoped that through doing various tasks the students will also learn about health-related issues as well as to become aware of their own health and Quality of Life (QOL).
